

# Venetian Polished Plaster

Bicolore (2 Color)

Classico (1 Color)

Spatula Stuhhi® Venetian plaster imported from Italy recreates Old World renaissance finishes for today's refined interiors.

Hundreds of years ago, Venetian plaster was created by mixing colored marble powders into local lime based stuccos, creating a wonderful, decorative wall finish for villas, palaces, and places of worship.

Made from slaked lime which is naturally ecological, these special plasters are mold resistant, age wonderfully, and are very low in volatile organic content (VOC). The product is installed by skilled installers in typically two or three coats, depending upon the desired final appearance. The color range, including both standard and custom colors, is unlimited. Creative effects include high gloss and matte finishes, tinted waxes, metallic glazes, as well as highly original, complex creations.

Triarch, the master U.S. importer of Spatula Stuhhi, stocks material in four regional US warehouses, allowing for quick supply for any project. Shown below is a product summary.

- Spatula Stuhhi – classic high polished Venetian
- Spirito Libero™ – matte finished
