

Collection of Joy™ — New Product Release

Collection of Joy™ Dazzles

Original, creative and sensual; Collection of Joy provides a wide variety of visual expressions. Collection of Joy enables a new way for designers, architects and decorative painting contractors to express their creativity. By early next week an initial supply of Collection of Joy brochures will arrive UPS to each sales representative. Web based training through GOTOMEETING will follow within days; look for the E-invitation.

Spread over two brochures, Argente (silver) and Oro (gold), Collection of Joy delivers almost 200 metallic tones; with each capable of lightly textured or smooth finishes.

Application is as flexible as it is creative. Apply by roller, brush, trowel, painters glove, HVLP or conventional; each technique creates a different effect.

New Color Chart Helps Streamline Samples

In Case You

Missed It:

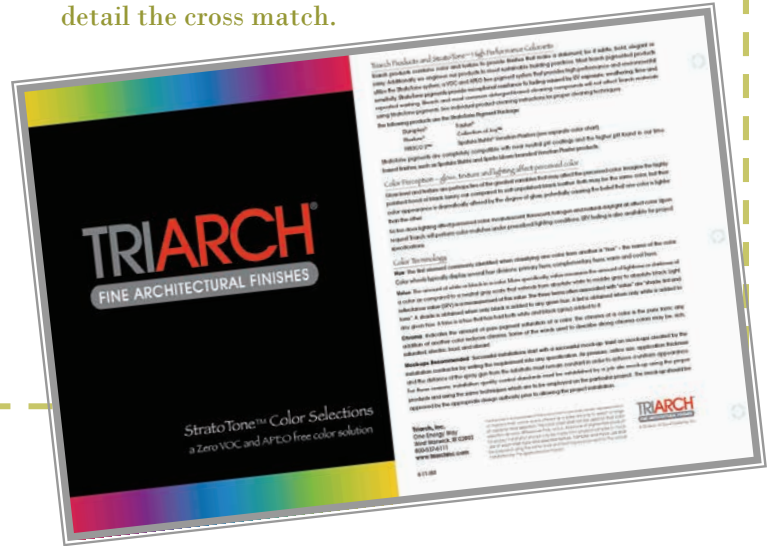

⇒ *If you meet an alligator and he's as scared as you are, the water will not be fit to drink.*

⇒ *When you can't find something, either it's lost or you are.*

In September Triarch announced a new color chart with 288 high performance, standard colors for the Duroplex®, Plecture®, Faulux™ and FRESCO™ product lines.

All 288 colors utilize the StratoTone™ zero VOC, APEO free pigment system. Selecting colors from the color chart will reduce the sample production time and

consequently make the design control samples available more quickly. When possible, requests for custom colors will be cross matched and converted to standards. Sample labels will detail the cross match.

EXPANDED!

TRIARCH's warranties now cover *labor and materials* on Duroplex and Plecture installations, when the product is applied according to manufacturer's specifications and installed by a factory qualified installer. This is new warranty position is supported by the financial strength of Triarch and underscores the strong belief in the installer community.

Yes — we are still making the covers of design magazines ...this time with Granyte™ and Spatula Stuhli.® See Notable projects on our website.

Nice Work...Freshly Completed!

Are you visual?

Two new e-portfolios on our website.

Venetian Plaster—elegant, contemporary and extremely relevant for today's interiors.

Duroplex—fashionable, extremely durable, ideal for value mined projects.

Did you have the new collection of completed projects for Spatula Stuhhi & Duroplex? It is on our website and available for IPADs, Android tablets and laptops. A great attention getter for 1/1 presentations or group meetings.
